MOTION FROM THE MEMBERSHIP

Submitted by JOSHUA BASMAN MONTEERRUBIO

Whereas increasing tuition fees creates barriers to access education which disproportionately affect members of marginalized communities, discriminates against international students by making them pay more than three times that of domestic students, and increases the stress levels of current students affecting their academic experience.

And whereas the student movement on campus is not organizing to voice the increasing concern of high tuition.

Be it resolved that the UWSA shall commit to organizing students for EIGHT DAYS OF ACTION one on each month of the Fall/Winter 2020-2021 time frame, to pressure university administration into committing to a strategic plan to fight tuition fees.
